

1st ANNUAL PLUMERIA SHOW

When: June 14th, 2025 – 9am to 3pm

Where: Fanick's Garden Center

1025 Holmgreen Rd. SA, TX 78220

Fanick's Garden Center is having our 1st annual Plumeria show and it's going to be a blast! We are going to have multiple plumeria vendors from all over the state showcasing their unique varieties of plumerias. Some from commercial growers and some from private growers so this is going to be a collector's dream! You're going to see and be able to purchase varieties never before seen. There will be several seminars on how to grow plumerias, how to graft them and how to propagate them. If you're a novice or a collector this is one show you don't want to miss. The show will be under the canopy of large shade trees and an open sided barn with cooling fans so come on out and explore the unique world of growing plumerias.
